

# ALLIANCE GEOSYNTHETICS

## Case Study 3

**Project Name:**

Wal-mart Store

**Location:**

Portland, Oregon

**Owner:**

Wal-mart Stores, Inc.

**Date:**

December, 2012

**Product:**

AllianceGeo BX2020 (60,000 SY)

**Civil Engineer:**

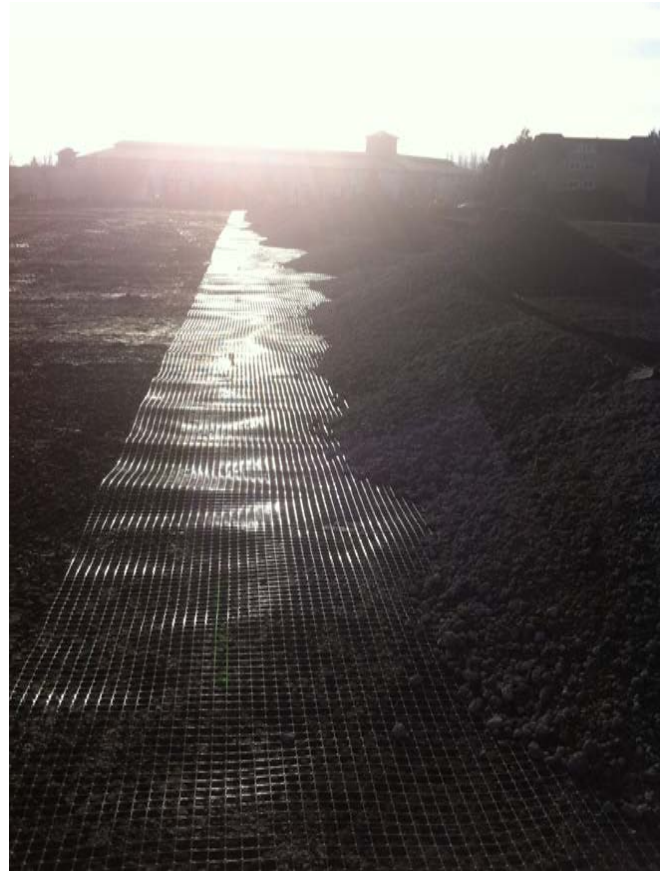

N/A

**Geotechnical Engineer:**

N/A

**Contractor:**

Coffman Construction

**Application/Problem Description:**

Base reinforcement of a store parking lot.

**Solution:**

Wal-mart Stores, Inc. has used geogrids within their pavement structures for many years. The objective in using geogrid reinforcement is to extend the life of the pavement and reduce the time and cost associated with future maintenance.
