

Project Name:

Ensign Road

Location:

Clatsop County, Oregon

Owner:

Clatsop County

Date:

September 2012

Product:

AllianceGeo BX2020 (60,000 SY)

Civil Engineer:

Ron Ash, PE – County Engineer

Geotechnical Engineer:

N/A

Contractor:

Thompson Bros. Excavating

Application/Problem Description:

Double-layer base reinforcement system for a new, paved County Road.

Solution:

The original design called for cement treated base (CTB) but a geogrid option was adopted as this solution was more cost effective, quicker and considered more reliable than CTB.
