

ALLIANCE GEOSYNTHETICS

Case Study 28

Project Name:

Federal Express Warehouse

Location:

Henderson, CO

Owner:

Federal Express

Date:

November 2013

Product:

BX1515

Contractor:

McCauley Constructors, Inc.

Application / Problem Description:

Trailer parking area.

Solution:

As many gravel trailer parking areas fail, McCauley took a more engineered approach and designed the gravel section to include Geogrid. AllianceGeo aided McCauley with the design to ensure that the optimum aggregate thickness was used.
