

**Project Name:**

Wells Branch Parkway

Location:

Austin, TX

Date:

Summer 2015

Product:

AllianceGeo BX2525 (140,000 SY)

Owner:

Travis County

Contractor:

Capital Excavation Company

**Application / Problem Description:**

A BX geogrid was used in conjunction with lime treatment in order to span soft areas and eliminate differential settlement for this paved road

Solution:

AllianceGeo BX2525 was used as an alternate to a Tensar TX5 geogrid on this project as it was deemed to provide the same function, met Texas DOT's geogrid specification and cost significantly less
